Huston "Fenix" Sampson

Full-Stack Developer

Profile:

I am a Full Stack Web Developer who has discovered a deep love for programming and creation. Some of my greatest personal traits include attention to detail while having a sense of urgency. I am an analytical and resourceful problem-solver with a disciplined mind ready to accomplish challenging coding goals. I have a strong commit history to support my ever-growing list of projects. I am a very hard worker who doesn't believe in a problem that can't be overcome. My greatest joy comes from learning new skills and growing as an individual. I am currently seeking opportunities to expand my expertise.

Education:

University of Central Florida Full Stack Web Development Program—2021—Certificate Top Projects Include:

Workout Tracker: I used HTML, CSS, JAVASCRIPT, MongoDB, Mongoose and Express.js to build a simple workout tracker that allows you to keep track of your exercises.

Weather Dashboard: HTML, CSS, JAVASCRIPT, OpenWeatherMap API, Bootstrap and jQuery were used to create a functioning dashboard that shows the current and 5-day weather forecast.

All Things Pets: Group project that used HTML, CSS, JavaScript, Handlebars.js, AKC Api, Dog Time, Daily Paws, Mindly and Wamiz to build an API from scratch which was then used to create a pet integration app.

Extensive Project List can be found on my portfolio

SoloLearn Certificates: SQL-07/21---HTML-08/21---CSS-08/21---JavaScript-08/21---jQuery-08,21
React/Redux-09/21
